THE PEACE PROPOSITION DISCUSSED. LONDON, September 13,-The Post rays it has reason to believe that an extraordinary cablust con cell, which was held yesterday at Constantinople, will plove of great importance toward a needy and pacific solution of the conflet in the Oitoman dominion. Con-cerning this council, a dispatch to Reuter's telegraph agency merely says that the conditions of peace were discussed.

A special to the Times from Vienna says that the council was held for the Iu pose of reconsidering the resolution previously t ken by the cabine', and which should have been presented to the powers on Monday. The correspondent says that this reconsideration at the last hour is undoubtedly due to the steps taken by the powers at the initiative of England. The British ambassador was in a posit on to know the resolution of the Porte to decline an armistice, and came forward with conditions which were not likely to be accepted, but served as a basis of terms of pacification fit to be discussed. He of cause informed his govern-ment thereof. Two days intervened— Thursday, the day of investure of the sultan at the morque of Eyoob, and Friday, the Turkish Sabbath, when no official business is transacted. Toese two days were taken advantage of by the British cabinet to make in conjunction with the other powers one more effort to present to the Turks the gravity of the moment, and if possible to induce them to reconsider the resolution they had taken. Saturday morning all the ambassadors had received instructions to join England in addressing the new and urgent representations to the Porte, which was done. It was not one of those

The Servians were driven back to Shabatz, but as the Turks did not follow up their advantage, the Servians reoccupied their lines on the Dring.

MORE TROUBLE IN SPAIN. London, September 13.—There are indications that trouble for Spain is brewing in the Basque provinces. It will be remembered that on August 26th, the discovery and suppression of outbreaks in Pampelina and S.bastian were reported, and on September 4th it was announced that the Spanish government had given notice that armed guards would be furnished passenger trains on application of the railway companies. Since then nothing has been heard in regard to the symptoms of disturbance in that quarter until last night, when a telegram stated that a ru-mor had reached Bourg Malme from Puycerda that a pronunciamento had been made in northern Spain. The this story has been received from Effing. Spanish legation at Paris to-day contradicted this report, but letters from Spain represent that great dissatisfaction exists among the inhabitants of the Resonance of the legation at Paris to-day contradiction in the effect that Miss Lee and two of his sons in-law would be killed on occa-Spanish legation at Paris to-day contra-Basque provinces, in consequence of the modification of the Tueros measures, which were to be put into force this month. The Daughter of a Georgia Clergyman

I wice Assailed by Negro Flends. Macon, Ga, September 3.—The de-tails of a bloody assault upon Miss Em-ma Lee, daughter of Rev. W. W. Lee, a respectable clergyman in Effingham county, Georgia, has already been published. It will be remembered that about two months (g) Miss Lee discovered some negro thieves in the house, and seizing a shotgun she fired at them. A few days afterward she was waylaid near the house by these same negroes, dragged to a distant point, and beaten till it was supposed that she was dead. Her b dy was then thrown into a neighboring pond, but the water revived her, and she managed to make her way homeward and tell her pitiful story Active and continued search was made for her assailants, but they were never apprehended. The second chapter in sion. Several notes of like tenor were subsequently left at his house, and the building has been several times, curing the night, assaulted with brickbats and window, endangering the life of one of Mr. Lee's younger children. LOUISIANA. For the month of August furnishes sixty seven replies, from thirty five parishes, from which we learn that the weather her been very hot and sultry with partial showers, and less favorable than during the same period last year. The plant has fruited well, but owing to the extremely hot weather, and to showers, followed by hot sun, it has shed its fruit badly. The present condition is not good, and does not compare at all with last year. Picking has commenced throughout the State, and will become general by the twelfth of September. Worms are reported in places in the hills, but in the lowlands they are everywhere. In the parishes of Carroll, Madison and Tensas, they have done considerable damage—estimated at twenty-five per cent., but elsewhere they are yet webbed up. There is much complaint of rust. The crop is "spotted," and on the whole not near so good as last year. MISSISSIPPI.

Our questions have been answered by seventy-six correspondents, from twen-ty-nine counties, average date August

The weather during the early part of the month was excessively rainy, and since then became hot and dry, and, on the whole, is decidedly less favorable than during the same period last year. The plant is reported so being well fruited, but the heavy rains and subsequent dry weather have caused it to shed considerably, and its present condition compares quite unfavorably with

the same time lest year.

The boll and army worms have made their at pearance in many localities, but the damage so far is only very light; some of our correspondents riso complain of lejury from rust and rot. Picking has commenced, and is expected to be general about the tenth

ARKANSAS.

The weather has been less favorable than during the same time last year, heavy rains having fallen early in the month, while the latter part has been too dry and hot. The plant is tolerably well fruited, but we receive almost universal complaints of heavy shedding, which makes the present condition far inferior to that of

Worms have appeared in several counties, but with few exceptions have not, so far, injured the crop very materially. Some injury is reported from rust. Picking will become general about the eighteenth instant.

He Concedes Porter's Election Certain, and Thinks Yardley was Bought by the "Dimocrats."

Special to the Appeal] LEBANON, September 13 .- General Maney is in the city, having returned to day from Carthage, where he spoke yesterday. I had a long interview with him this afternoon. He will take no further share in the canvass at present, if at all. He is thoroughly disgusted at the way things are working, and says he feels the need of an organization to back him; is convinced he can do nothing as long as Yardley remains on the track, and thinks the man-andbrother will stick. He admits that Porter cannot be besten in the present condition of affairs, and says the only way to beat him at all is for Yardley to quit and Thomas to run on. He says the and Thomas to run on. He says the imported Australian, 2; Williams & Republican leaders promised him the Owens's Whisper, by Planet, 3; James solid support of the party, and that no Independent should run. He thinks

Yardley was bought up by the Democrats, but says he cannot prove it. I have just seen a gentleman from Carthage, who reports that Porter made a fine impression yesterday.

BRIGHT BUSINESS PROS-PECT.

The Opinion of the Commissioners of Internal Revenue-Cheering News.

Washington, September 13.-The commissioner of internal revenue is encouraged to believe from the reports of officials throughout the country and from evidences which reach the department of incressed activity among distillers and tobacco dealers, manifes'ed by the demand for reverue stamps, that here will be a very considerable increase in the revenue of the government during the present year over those of last year. Other returns to the internal revenue office are of a very encouraging character and indicate, in the opinion o the officials here, a more cheerful condition of business affairs throughout the country. O. F. Johnson will be appointed collector of internal revenue in the consolidated district of Kentucky in place of G. H. Reno.

THE GENERAL COUNCIL.

Contract for the Improvement of the Landing - City Taxation - A Disagreement About Adjournment,

The common council, not having quorum yesterday afternoon, the board of aldermen met in session, but adurned to four o'clock this afternoon. Subsequently the common council secured a quorum of members, and that body and the board of aldermen met for the transaction of business. The requisitions and routine business

then considered the various bids made for the improvement of the wharf and landing, as specified in the city enginears advertisement. The bid of James Loudon was considered the lowest, and he was awarded the contract.

Reports were made from the local conferences, and also from the Unitarian Sunday school association. In the afternoon an appeal was made for assistance to build up a church edi-fice in Washington, which was met by pledges of ten thousand dollars. At the missionary meeting, in the evening, further progress was made in raising an additional twenty thousand dollars required for the Washington churchbuilding.

The Canvass in Clarksville, Clarksville Letter, Banner 12th. The Tilden and Hendricks club, and our people generally, were addressed by Hon. Thomas L. Dodd, of Nashville, ast Saturday night. He spoke for one hour, and dealt some sledge-hammer blows for Damocracy and reform. His remarks were enthusiastically received by his audience, and much good resulted to the cause from them. Hon. John F. House, our present congressman, and Commodore H. M. Doak, of the American, both favorites with our people, followed Mr. Dodd in speeches of fifteen minutes each. Both gentlemea spoke with the vim and determination of men wholly enlisted in the cause, and evinced a spirit that must triumph in victory next November, if it is only caught up and borne along by the masses of the
